About us

The Crown Oil story began in 1947, delivering lamp oil and heating fuels to local homes and businesses. Over the decades, we've grown into one of the UK's leading fuels and lubricants suppliers, serving thousands of customers nationwide across virtually every industry.

But while our reach has expanded, our values have remained the same:

- Personal service
- Trusted advice
- Total reliability

Our lubricants offering:

- All lubricants quality assured to guarantee top quality
- Blending lubricants, oils and greases for over 35 years
- In-house chemists with onsite laboratory
- Over 10 million litres of lubricants sold
- Base oil and additive trader
- Nationwide coverage

What can you expect from us?

One-to-one support

All our customers receive dedicated account support

Delivery within 48 hours

Vast stock onsite & large tanker fleet to serve the nation

Certified carbon neutral

The UK's first carbon neutral supplier in line with ISO 14068-1

Flexible options

Order in bulk, IBCs, barrels or smaller packs to suit your operation

Lower emissions

HVO fuelled fleet, reducing your scope 3 emissions

All-in-one service

Fuels, oils, lubricants, AdBlue®, tanks & more all under one roof

Custom-blended and OEM-approved lubricants, greases and oils

Keeping your business moving

We understand how important it is to keep your operations moving without interruption. That's why we supply a wide range of high-performance lubricants designed to meet the demands of every industry.

Our product range includes:

- Mineral and synthetic oils
- Biodegradable options
- Food-safe solutions
- Fire-resistant blends

From OEM-approved oils and greases to bespoke formulations, businesses across every sector trust us to deliver the right products for their needs.

Our team of skilled technicians has decades of experience in developing and recommending specialised lubricants. This expertise allows us to tailor products to your exact requirements, ensuring optimum performance for your equipment and vehicles.

The right industrial oils and lubricants not only maximise equipment efficiency but also extend vehicle lifespan and reduce maintenance costs.

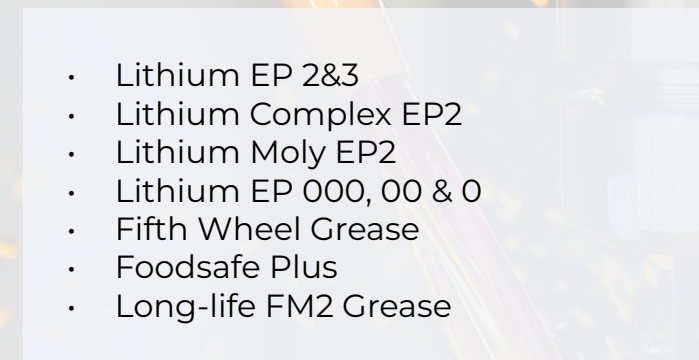

Choosing a supplier with the knowledge and reliability to provide the right products makes all the difference.

As one of the UK's leading lubricant suppliers, we are committed to helping businesses achieve long-term reliability, efficiency, and cost savings with the very best products and technical support. Call 0333 004 0390 to speak to a specialist today.

Agri lubricants

- SUTO 10w30 and 15w30
- Milking Machine Oil 68
- TO4 Transmission Oils
- Titanium Euro 6 10w40
- Two-Stroke Oil
- UTTO
- Chain Oil
- Bio Hydraulic Oil 32, 46

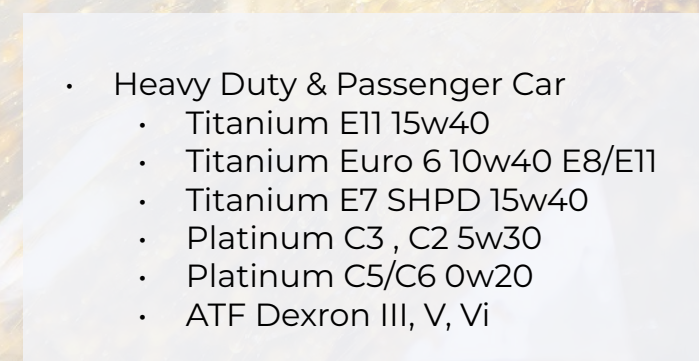

Greases

- Lithium EP 2&3
- Lithium Complex EP2
- Lithium Moly EP2
- Lithium EP 000, 00 & 0
- Fifth Wheel Grease
- Foodsafe Plus
- Long-life FM2 Grease

Metalworking oils

- Metal Protectants
- Soluble Cutting Oil
 - Milky Soluble
 - Semi Synthetic
 - Grinding Fluid
- Neat Cutting Oil
 - Neat Cut CF 10
 - Neat Cut LV

Vehicle oils

- Heavy Duty & Passenger Car
 - Titanium E11 15w40
 - Titanium Euro 6 10w40 E8/E11
 - Titanium E7 SHPD 15w40
 - Platinum C3 , C2 5w30
 - Platinum C5/C6 0w20
 - ATF Dexron III, V, Vi

Industrial oils

- Slideway 32-320
- Heat transfer oil
- Quenching oil
- Transformer oil
- Gear and engineering oils
- Turbine Oil
- Mould Oil

Biodegradable lubricants

We know that when you're operating in sensitive environments, whether on land or near water, your lubricants must do more than just perform - they must protect the environment. That's why we supply a specialist range of biodegradable oils and lubricants that combine sustainability with uncompromised performance.

Formulated by the UK's leading experts, our biodegradable oils:

Break down naturally, reducing pollution risks in sensitive locations

Protect your equipment and the environment without compromising performance

Are expertly blended using high quality, biogenic base oils and advanced additive technology

Whether you work operate a farm, construction site or in a protected ecosystem, our biodegradable range delivers outstanding lubrication while helping to reduce land and water contamination.

Key benefits

Reduced risk of pollution in sensitive locations

High-performance protection without compromise

Meets strict environmental standards

Perfect for a range of versatile applications

Lubricant health checks

Are you using the correct product for the job?

High-quality lubricants are critical to the efficiency and reliability of your operations. That's why we offer expert lubricant health checks to give you complete peace of mind, ensuring you're using the right oils for the job, that they are performing as they should and alerting you if they're not fit for purpose.

What's involved?

Standard Health Check – Internal Assessment

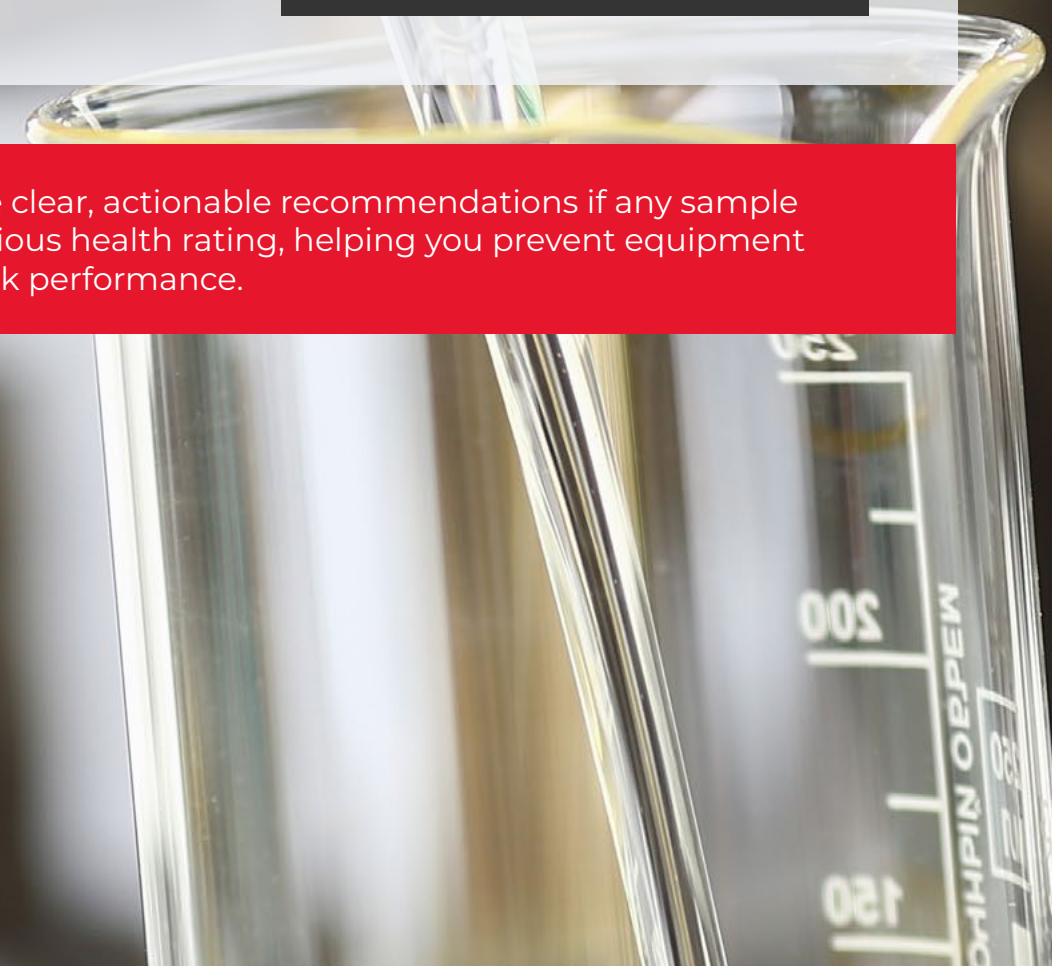

- Density at 15°C
- Viscosity index
- Viscosity grade at 40°C and 100°C
- Moisture content
- General cleanliness

Premium Health Check – Comprehensive Analysis

Includes all standard checks, plus testing for:

- Contamination
- Additive levels
- Wear metals
- Overall fluid condition

After testing, we provide clear, actionable recommendations if any sample receives a caution or serious health rating, helping you prevent equipment issues and maintain peak performance.
